1. Download the App

Download and install the “GOXD Memto App” from the Apple® App Store or Google Play™.

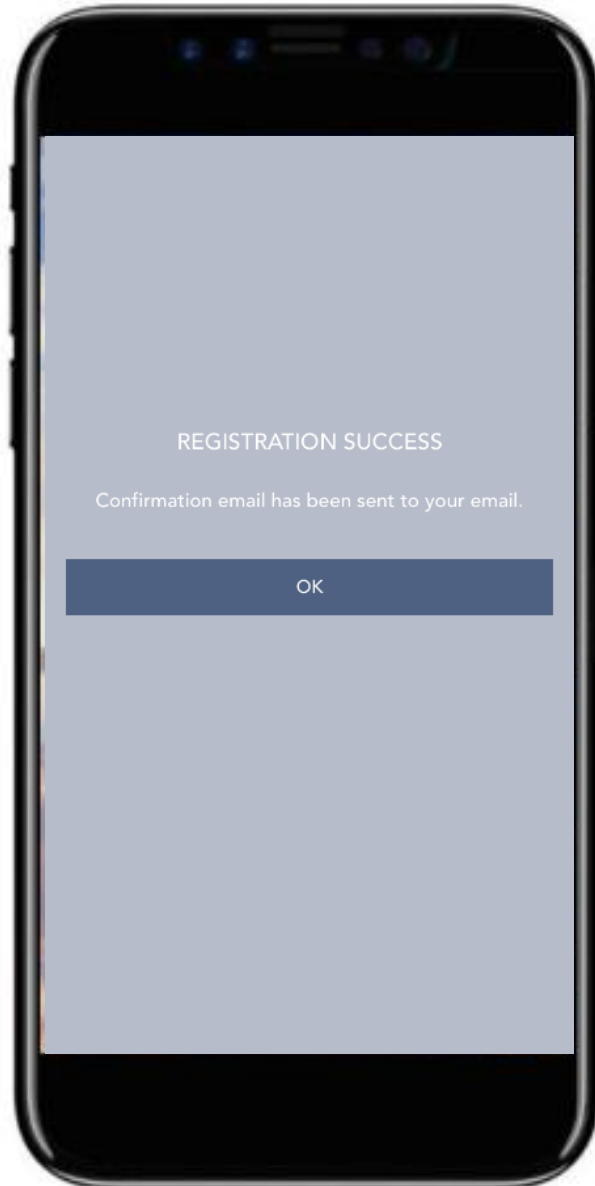

Open the App and Click “Sign up” to create new account

2. Create an Account

Sign up using a valid email address, user name and password, then click “REGISTER”.

The image shows a smartphone screen displaying the registration page for GOXD. The page features the GOXD logo at the top, followed by four input fields for Email, Username, Password, and Re-enter Password. A dark blue button labeled "REGISTER" is positioned below the input fields. A blue line with a circular endpoint points from the "REGISTER" button to the text on the right.

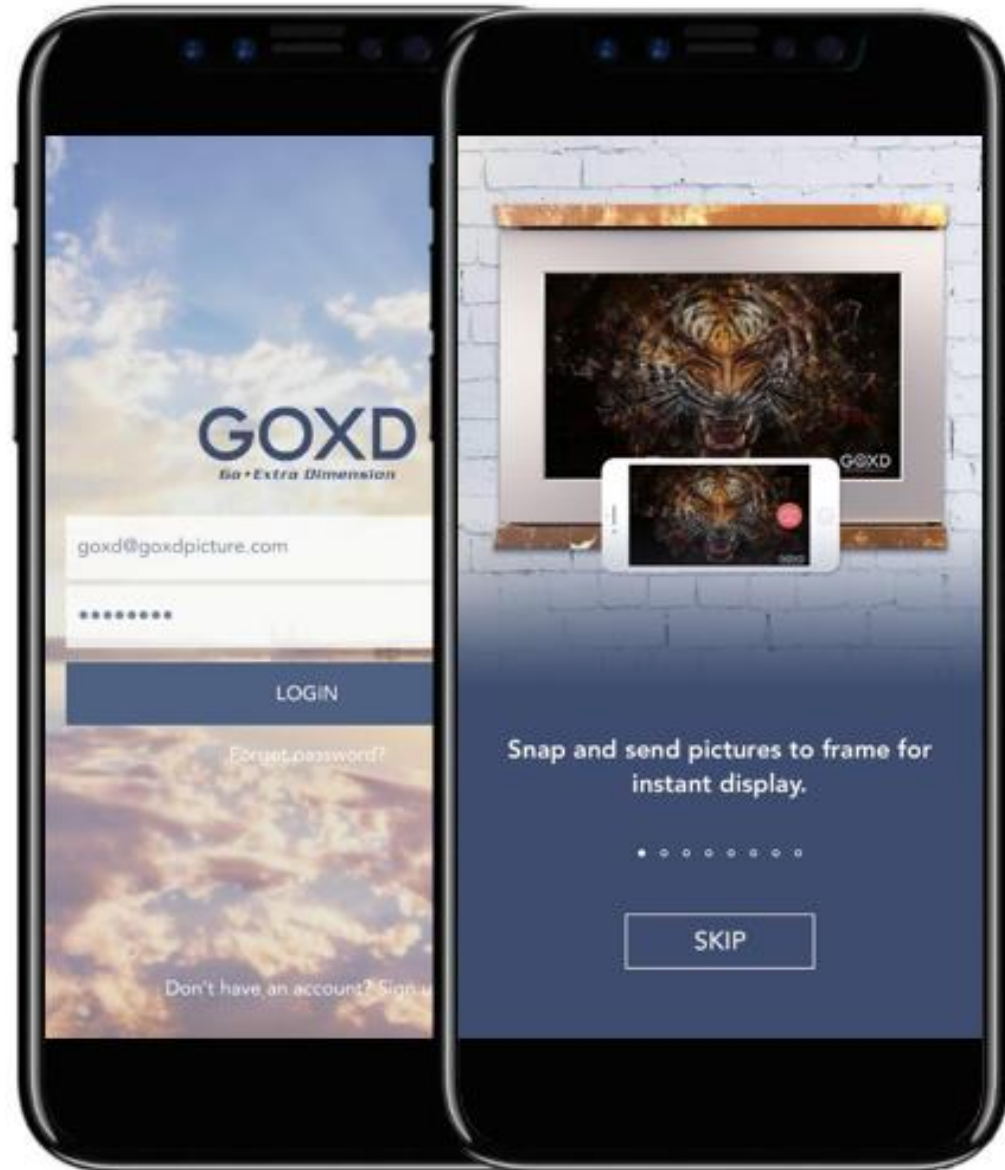

3. Activate the Account

After signing up an account, a verification email will send to the email address you provided.

Check your mailbox , click on the link in your activation email to finish the sign-up process.

****** The email need to change the name and with little content.... Not just the link***

4. Tutorial

Once you login the App, it will provide a simple tutorial to brief you the feature of the app.

Setup the Frame

Before setting up Memto™, all you need are followings:

- A Memto Live Picture Frame
- Remote control
- GOXD Memto App with account created.

Firstly, turn on the frame and follow the instructions show on screen to set up the language and Wi-Fi connection.

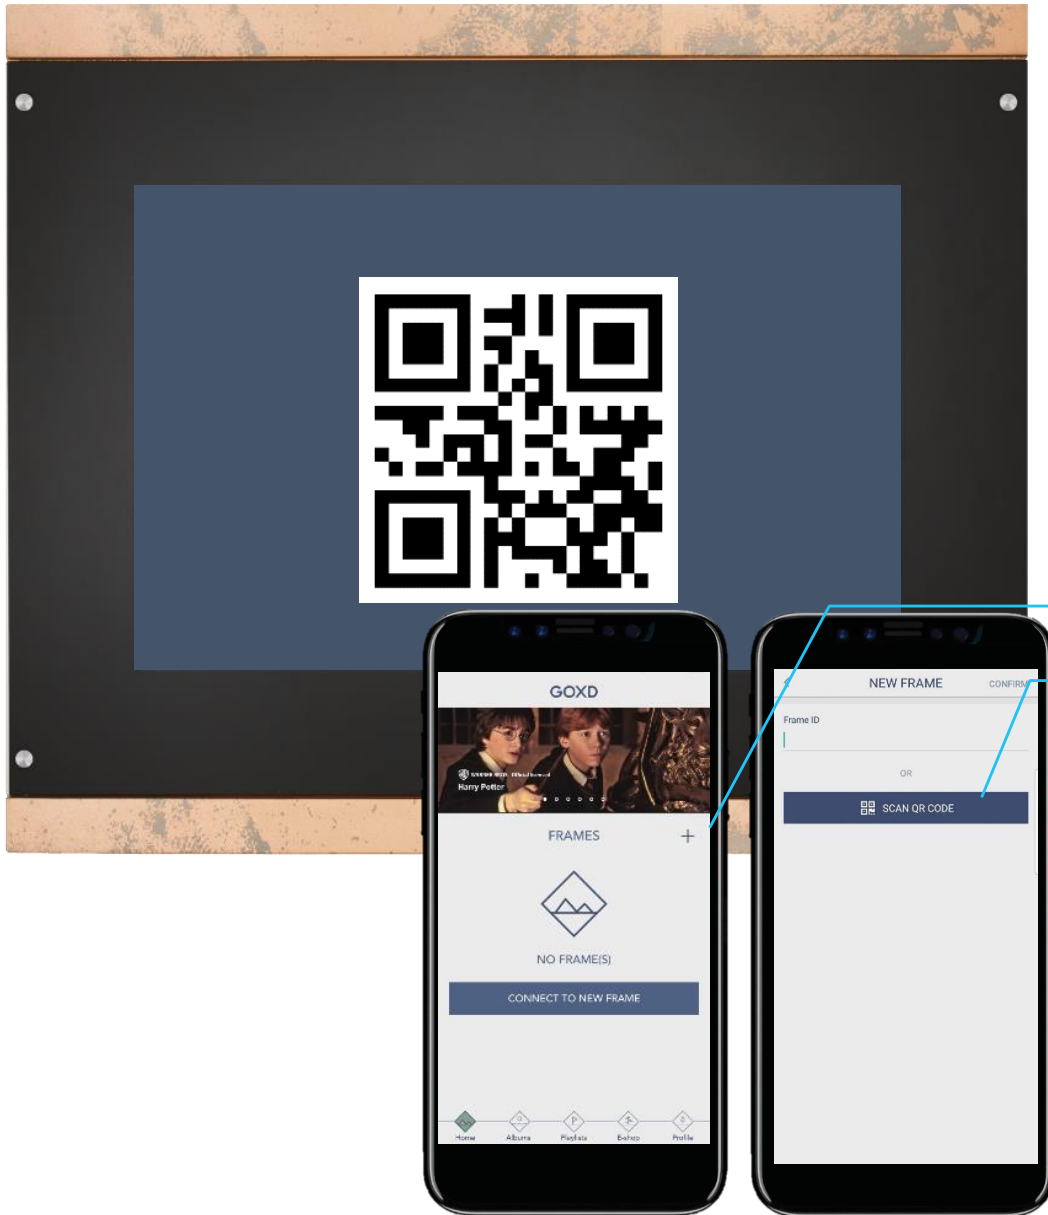

Pair the Frame with the App

After setting up the language and Wi-Fi connection, there will be a QR code shows on the screen of the frame.

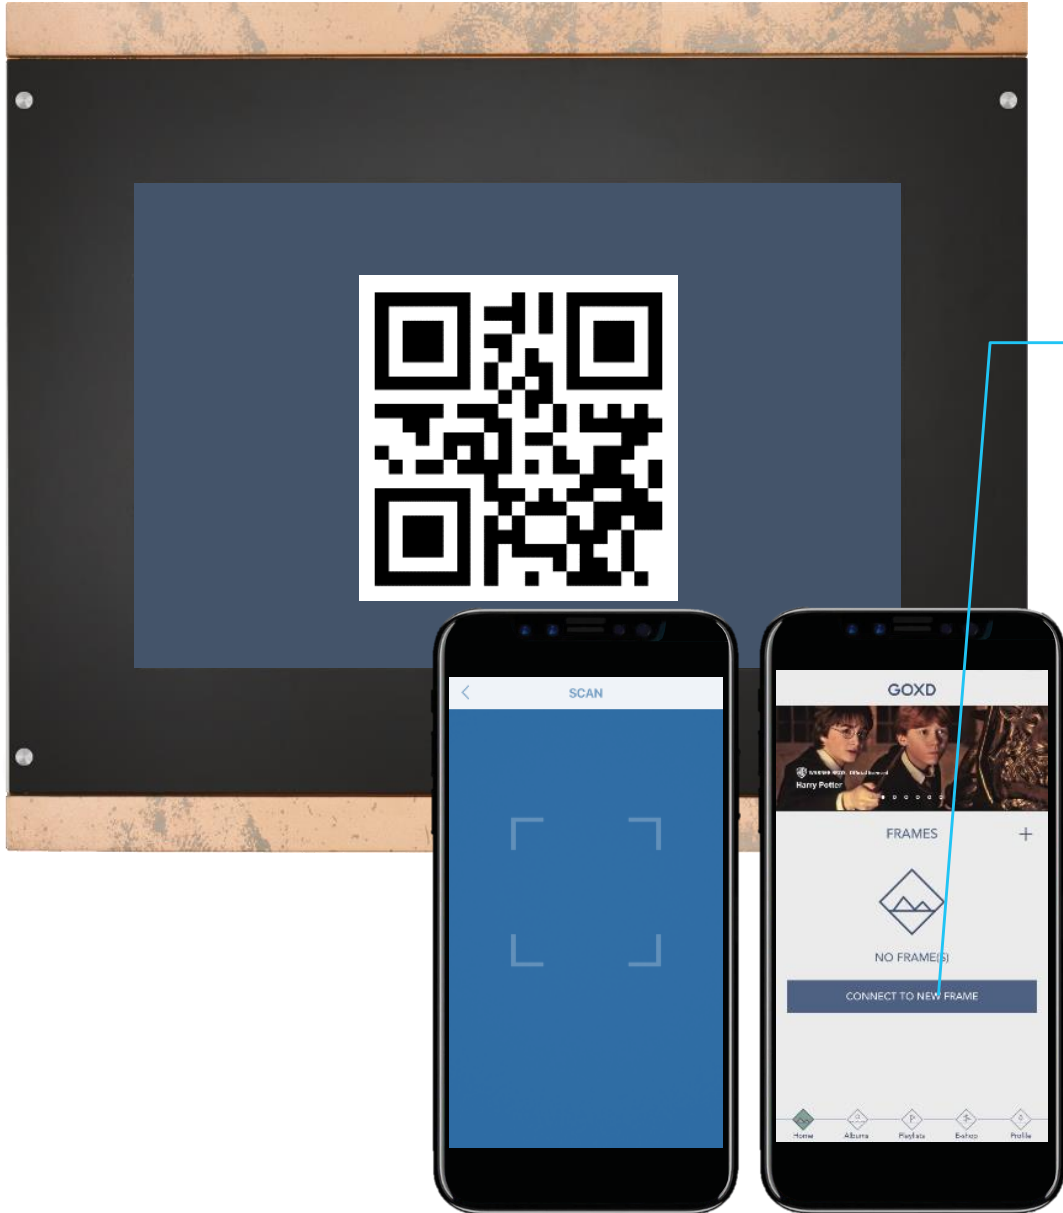

Open the GOXD Memto App.

- Click “+” to add Frame
- Select “Scan QR Code”.

Scan QR Code

Scan the QR code shows on Memto™ with the app, then click “Connect To New Frame”

Frame Connected

Once connected, there is a skyline photo shows on the screen, and you can see your frame in the App.

Up Button: Hot Key to browse all albums

Setting Button: Display the main setting menu on frame.
